

## e-learning

The Translation People have an extensive track record in translating online learning content for global organisations in IT, energy, telecomms, logistics, healthcare, legal and finance. As well as translating your content, we can handle animations, voiceovers and subtitling which support your material.

We will adapt any social, cultural, geographical or idiomatic references to each of your target audiences as well as technical information such as measurements or currency. Our in-house experts will also carry out a final functional and linguistic check before your material goes live to ensure that line break and hyphenation rules are adhered to in the target language.

Our translations have been used to train and develop people in areas including:

- health and safety
- customer service
- legal compliance and CSR
- courseware
- induction programmes
- software systems

We translate and typeset all world languages from Albanian to Arabic; Czech to Chinese; French to Farsi; Greek to Gujarati and Turkish to Thai through a network of tried and tested language professionals which stretches all the way around the world.

Our production specialists can adapt your original content and graphics in formats such as XML, HTML and Adobe Flash. We cover languages in European, Middle Eastern, South Asian and Far Eastern alphabets and scripts.

Our translations have been used by brands such as:

- website localisation • software localisation •
- technical authoring • technical illustration •
- subtitling & voiceovers • MTPE •

### About Us

Any translation company worth its salt will tell you that it provides high quality translations carried out by native speakers, that it works with the latest technology and that it treats your material as confidential. We're no different. But we do believe that the calibre of our people gives us the edge over our competition.

As one of our clients, you'll have a direct line to an experienced account manager who will be your single point of contact. They'll identify your requirements, select and coordinate the appropriate resource team and ensure your project is delivered in the appropriate format, on time and on budget.

To speak to a translation agency that really understands  
the e-learning sector, give us a call on
